Once Upon A Time....
Masconomet 2002

Dedication

Once upon a time, a science-wizard named Mr. Serino came to the far away land of Masconomet. From that day onward, all of Masco subjects lived in happiness. He defeated many fierce dragons and overcame countless obstacles in order to win the hearts of his many students. In the classroom, his vivacious attitude and unending enthusiasm make learning enjoyable for all. His creativity in the classroom promotes a profound appreciation and understanding of science for his students. Whether through projects such as dressing up as a periodic table element, writing in "reflection journals," or taking a field trip to learn more about life sciences, he extends both his creativity and excitement to all.

Mr. Serino is an active member of the Masconomet Community, as well as the Tri-Town community in general. As head of the Peer Leaders, he promotes public services and friendships among the upper and lower-classmen. He is also the faculty advisor to the senior class, a large task that he valiantly undertakes. Mr. Serino is active on the athletic fields as coach of JV soccer, indoor track ("D" Team), and the newly formed frisbee team. He teaches his athletes the true meaning of "team" by exhibiting his leadership and determination. This wonderful teacher is a valuable asset to all aspects of Masconomet, for his everlasting supply of happiness adds much to both students and staff. Mr. Serino has written many pages in the book of Masco history, and he truly can be regarded as an inspiration to all. Therefore, in honor of your utmost devotion to the Masconomet Community, the class of 2002 would like to dedicate this yearbook to you, Mr. Serino.

Once upon a time, three hundred children from different lands were brought togther to create a mighty kindgom their strength, nobility and heroism were needed in order to achieve this great task. They were ready to take on challenges and conguer obstacles in order to accomplish their ultimate goal. As the children entered the opening gates that led to their path, the reallized they weren't in Kansas anyone. Giants surrounded them as if they were a piece of cheese and they were a pack of mice. The giants turned to the large group of children and whispered, "Come with us, and you will experience amazing things along thi magic carpet ride. it will truly be a whole new world." The children looked up to these giants and hoped to one day follow the yellow brick road in their footsteps...

Sophomores

.. A year had gone by and they were no longer called children, for they had learned so much. As one by one grew into their surroundings, they became known as students. The long and winding yellow brick road to their destination brought the children many challenges. It was a test of intelligence, loyalt love, friendship and of course, the MCAS. This particular chapter of their lives was easygoing and somewhat simple. They knew they had to prepare for their most important year, yet to come. "Continu on"... said one of the giants. "See that North Star? The best can be found second to the right and straig on 'till morning..."

... As the students followed the yellow brick road and the North Star, they encountered certain obstacles. Obstacles that challenged them mentally as well as emotionally. Tests were taken to determine their destiny and they no longer skipped down the long and winding road. Instead, they were using a carriage they had rightfully earned. Traveling through the land at full speed, lives were changed and reputations were reinvented. The group learned more and more about themselves and eachother. As they realized how close they were to reaching their kingdom, they became nervous. Afraid yet curious, they continued following the North Star along the yellow brick road towards their final year...

Italy Trip

During the summer of 2001 Mr. Davenport led a group of students Italy. We explored the canals of Venice, saw the art in Florence, saw the sights in Rome and made frequent "pit-stops" to cities such as Padua and the ruins of Pompeii. The students saw the Colessium, the Vatican, The Trevi Fountain, the Roman ruins, the Sistine Chapel, and they even experienced a gondola ride throug the city of Venice. Between trying to find Max, performing in the Roman streets, chilling at the autogrille, and keeping the Virginian boys out of trouble, great conversations were had, and lasting friendships were made.

French Exchange

You can have so much fun with an umbrella- especially in France! When 25 students left Logan on the 5 of April, we set out to explore the French culture and to make new friends. We spent our days r'seeing to places such as Nice, Paris and Rennes, all while futilely trying to avoid the "dangerous" ters. Our trip continued onward towards the enchanting sights of Paris. The 5 days there were filled t fieldtrips to the Eiffel Tower and L'Arc de Triomphe, while our nights were spent dancing away at s or going to cafes. The journey concluded with a 10 day stay at the homes of our exchange partners. never, we all agree that the "best" part of the trip was the food at Le Bounty...fish soup and pate.

German Exchange

When June approached, eleven Masco German students left behind classes, homework, and finals. We traded our schoolwork for the experience of the amazing German culture. Our time was spent on various fieldtrips to picturesque castles, encountering the clientele of the Hofbrauhaus, and visiting nearby towns, such as Salzburg. Our group often met at the Marienplatz, Biergartens, "scenic" local lakes, or at Spicy's Basement . We also attended school with our exchange partners, and were able to practice our basic German language skills. Long-lasting friendships were made, and it was truly an experience that we will never forget.

panish Exchange

estled in the mountains and overlooking the ocean. the beautiful Basque Country became home to the co Spanish students last April. We experienced the true culture of Spain by attending school with our change partners, going to Cidreria and even traveling to Madrid. Our group bonded through midnight ks on the beach, dancing at Club 34, and even body piercing. We formed many strong friendships ween both the Spanish students and the Masco students, and it was a wonderful experience.

The New School

vering high against the sky, the new 'Masconomet Castle' is the pride of all the rounding lands. Craftsmen have toiled tirelessly to make the dream of a new castle lality. Many battles were fought along the way, but all the adversities were finally rcome. All of the efforts have been handsomely rewarded, for the castle is one of the t magnificent around. It is not only wonderful outside, but practical inside as well. castle contains the newest 'magic' technology, spacious classrooms, and a large for the grand feasts. At first, navigating the hallways was quite difficult, but dually all people grew accustomed to the changes. Now, nobles, students, and agers alike all enjoy the wonders of the new Masco Castle.

Girls Soccer

The girls soccer team had an incredible run this season finishing the regular season undefeated (17-0-1). They beat rivals North Andover both times and clinched the CAL title for the second straight year. They had some fun late night TP missions and became really close throughout the season. They did a great job in the tournament making it to the north finals. With a final record of 20-1-1 the team should be very proud of all there accomplishments. Great job!

Boys Soccer

Boys soccer had an incredible season this year. Every player on the team lived up to Masco's soccers standards and beyond. The talented seniors will be missed next season but have no fear, their foosteps will be followed by equally talented underclassmen. Although the boys did not win the state tournament, they left their mark, and all would agree that they played with incredible perserverance. The Tp wars have ended (for now) amd the season is over, but everyone is looking forward to another memorable, and toilet paper-filled season next year.

What was your secret weapon in the TP wars this year?

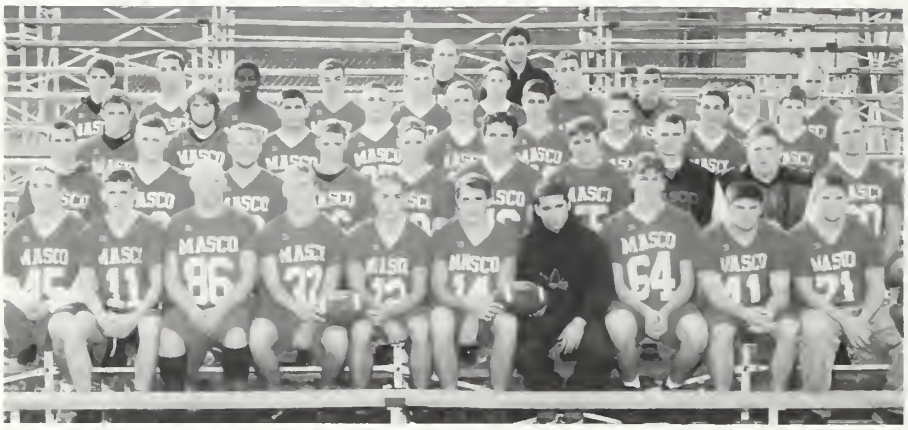
Football



This year's football team, led by captains Wayne Maribito, Joe Bavaro, Scott Roden and Nick Eddy had a great season. Many excellent plays were made by the starting seniors on the team. Masco certainly gave the opposing team quite a challenge. For the first time in a while a Freshman made the team and played a major role in the teams success. Speed, strength,and endurance were the keys to this years season. It was a rocky start but by the end of the season, the Masco football team had their share of success. Although they did not make it to the Super Bowl this year, there are high hopes for next year. Good job boys!

Field Hockey

At the beginning of the season the field hockey team wasn't looking so great. 5 returning starters and three missing coaches was quite a fate. Injuries, sickeness and illegal goalie pads all blocked the way. But then the dynamic duo of Mrs.Kenny and our boy coach saved the day! With a really close team of forwards turned defense, sister sticks, wrestling, dumpster boys and Lafayette Street. We, roved that we could beat any team we would meet. Lights going out in Wilmington, rain at NA, nothing could stop us on our way. With youthful talent it's no mystery that this year's team was one of the best in Wasco history.

What was you most memorable moment this season?

Being able to tackle Ashlyn after every game.

Well girls, we made Masco history. Painted the bridge, beat Cleary,made it to North finals, adopted a mini dancing gorilla, and learned how to "work it" on the court. Never froget the inspirational tip of the day, "always smell your cheese before you eat it."Trips to the place that none of our parents can know about, sleep overs, and all the other amazing times are what kept this team together. Another amazing season for girls cross country. This years team was really young but exceptionally strong. They ran great all season and ran all the way to a fourth place finish at the CAL meet. With seven wins and only three losses these girls were unstoppable. Boys Hockey

Thup Fellath...Well, Masco Boys Hockey had quite a memorable season. With victorious defeats such as the win against Lynnfield and the win against Masco's rival, North Andover (just to name a few), it's no wonder Masco hockey keeps up its reputation for being one of the best in the Cape Ann League. Great season, boys!

What is the one thing you look forward to the most during hockey season?

Their biggest win came midway through the season when they beat powerhouse Billerica 8-2. Also the hockey team enjoyed th increased support from the students and the community. Great job girls!

4 years pass, the smoke clears, and here I am talking sh*t to a judge. 8 years of learnin' to bar b d, the other 2 bein held in contempt of court. Most people dream of bein rich, but I am. I'll tell you now you know you're a rich b d when you throw Bently's around the pennies. I remember every night at law school and still coming back to pass the BAR, oh and I did. Now I'm drivin' my chalked white Bently around with the hydraulics kickin and the system blarin cuz I can, unlike you. If you see a BUV screamin through topsfield center at 220 and flip over into a huge wreck and the man inside then proceeds to another Bently and does it all over again, oh you'll know. You see I'm the type of f*ss you read about in books on the top shelves with dust on em cuz I'm full of three things; knowledge to screw you over, money to throw in ya face, and cars wit a flyin B. The next time you see me you better know how to count teeth and or dodge a speeding BUV, cuz aint nuttin stoppin me biznatch. P.S. I'll see you in court.

Welcome to my "Senior Square" and thank you for taking the time to read it. I would first like to thank my family for their continuing support over the last 17 years. Special thanks to my parents (you did everything for me). Ron-you were always there for me, giving advice on almost everything. Sean-we share some really good memories from cross-country and wrestling. My friends you know who you are, although you don't want to admit it. Ray "Ray", Coach Brown, Coach Mintz and Coach Puleo; I cannot begin to thank you for all you have done for me. You all made me a better and stronger person, both mentally and physically. And the x-c team, I will never forget Meatfest, 21 straight victories and the numerous other memories. My favorite high school moment occurred at Harold Parker State Forest, Masco 28-North Andover 29. 2 CAL Titles, 2 CAL Open Titles, CMI Champs, 21 Straight victories; not bad, not bad at all.

"High School" is but a stage in our adolescence, a phase in our lives. Here, we all play our roles. We exist both as the person others see us to be, and, more importantly, the person who we truly are. It is a time for learning, growing, and making mistakes. I've done my share of all three. I have regrets. I've hurt and I've been hurt. But the entire experience has given me a better understanding of myself, and, for that, I am grateful. I've many people to thank for my having gotten to where I am today, but none more important than my family. Dad, you've taught me so much, and I am so thankful to have you as my father. We have a special bond that no one can ever take away. Thank you. I love you. I'll always be your little girl. Mom, you mean more to me than you could ever know. The lessons you've taught me will continue to guide me throughout the rest of my life. You are an angel in disguise. Thank you. I love you. Rob, you've been a better friend than I could ever have dreamed of. No one understands me the way you do, and I know I can always trust and count on you. I'd never have made it this far without you. Thank you. I love you. To the rest of my family, you're truly a blessing in my life. I love you all more than you could ever know. To my friends/classmates: I'm going to miss seeing your familiar faces in the coming years, but I will never forget you. Thank you for helping make me the person I am today. To those I've hurt, I ask for your forgiveness, and to those who've hurt me, I willingly give mine. I hope we'll stay in touch in the future. God Bless. Love Always, ♡ Jen ♡ ~JJMARIA@aol.com~

Instead of giving shout outs to every individual I know, I'm going to sh
one of my most enjoyable high school experiences, the x-c team. To t

decades to come. I would like to thank all the guys on the team, I consider

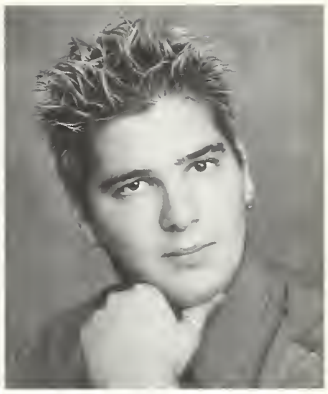
After 4 long years, hell froze over and I Graduated. Now I can move on to college and forget all the bad things of high school. For the few people that helped me through these tribulations I would like to mention My Parents, NF, JW, KW, TA, RC, ML, LH, DM, FG, SALVIA, and the captain. If you see me later on in life be sure to say hi, because you'll probably see me rolling in my Bentley on dubs through T-field center with my system up. I hope you have good lives because I know mine is going to be a hundred times better. I hope I don't see some of you again.



Dustin Quadros

To my friends, to my family, to my teachers and to those who just said hi to me in the hallways and brightened my day, thank you all for everything. These four years went by faster than anything, especially the last two, and they're finally over. It's time to move on, but I will miss everyone so much. ~ **Mom and Dad**- Thanks for being there for me when I needed you the most, through the bad times and the good. ~ **Kayla**- We've grown up with each other through varying times and moods for almost sixteen years and will continue to do so for the rest of our lives, even when I leave for college. We will always be there for each other. ~ **To all my friends**, and you know who you are- I don't know what I'd do without you. Thanks for always being there for me. ~ I love you all and am blessed to have such wonderful people around me. Stay true to yourselves and you will succeed and be happy. Live life to its fullest and never give up.

Always,

You know, its funny. Freshman year we all came together entering our first year of high school wide-eyed and timid. We were told to make the most of our high school career because the next four years of our lives would fly bye. Well, whether we acknowledged that or not, it has flown bye and we are all seniors about to turn the page to the next chapter of our lives. Thank you to everyone at Masco that has made my high school years pleasant. To my **MOM** and **DAD:** The two of you have made a lasting impact in my life and made me into the young man that I am today. You've gotten me through tough times and always offered your love and support, Thank You, I love you Both. Well I couldn't fit everyone in but to my girls and everyone graduating from the class of 2002 I wish you all the best of luck.

Whoever said, "Ignorance is bliss" was an idiot. Respect goes to all who chose not to listen to that fool, who took past what they view to actually See. Thanks to all those who helped me through it all with smiles, laughter, hugs & kisses. Without you, I would be lost. For those wondering "Does she mean me...?" I do. Every smile was a huge support through these past 4 yrs. Thanks for all the fond memories I reflect on so often & for keeping me in touch with what really matters: family & friends, laughter & love, the care-free breaks from Life, and the support that results from Love's invisible ties. Well its been quite the 4 years. Freshman, Sophomore, Senior year were awesome, Junior year...we don't like to talk about that. For all those that I've hung out with, you know who you are, we've had some great times, too many jokes to mention, I would literally need 10 of these squares to say them all. Mom and Dad thanks a lot, I couldn't have done it without you, you two really are the best parents a teenager could ask for, love you. Myles, hope you have a great time in high school, but do well and be smart. Karolina, Aaron, Lance, Martin, Wendy and all the rest, you guys are awesome, love you all. Kendall and Nicole, half those 10 squares would be about you two, we've had too much fun, I'll see you around. As for Masco itself, I am more than happy to be moving on. High School was great except for the attitudes of the administration, teachers, and the innumerable amount of meaningless rules set upon us by bitter adults that have forgotten what it's like to be a teenager, even though they vowed to never forget. In closing I would like to say thanks to everyone that has made the past four years amazing, I won't forget the great times. Truthfully, as I move on to bigger and better things, I will probably never see most of you again, however, I wish you all the best of luck and have great meaningful lives.

Every morning for the past four years, I have always looked into a mirror. When I was just a shy, restrained fourteen-year-old boy in 9th grade, I looked in that mirror and that reflection wasn't me. s my experiences at Masconomet grew, so did I. I'm now a senior and when I get up in the morning and I look in that same mirror I see the real me. I see someone who I'm proud of, someone who I love, and someone who I'm not afraid of being anymore. I need to thank Ms. Due and Ms. Camer for everything they have done for me in the past four years. I honestly do not know where I would e today without their guidance, love and wisdom. They have helped me through some of the hardest times in my life, and I consider them to be not only two of my best friends, but two women whom will admire for the rest of my life. I need to thank my family for all the love and support they give me each day. I'm blessed to have such understanding parents and such a crazy sister. Stacy, never stop laughing- it's the key to life. I don't have enough room to list all my friends, but I feel as thou h I need to mention my two fabulous lady-friends. I was never the same after Mandy and Larisa can into my life. I love you girls more than I could ever express to you. We've been through a lot, and will always be there for both of you. I'm moving on but not leaving anyone or anything behind, al my friends and all my memories will be forever locked in my heart. I love you all!

Friends
"There are those who pass like ships in the night.
Who meet for a moment, then sail out of sight
with never a backwards glance of regret;
folks we know briefly, then quickly forget.
Then there are friends who sail together
through quiet waters and stormy weather
helping each other through joy and through strife.
And they are the kind who give meaning to life."

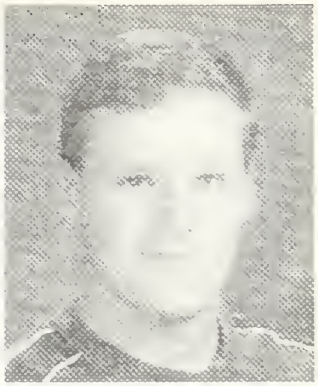
Overall my education at Masco has been enjoyable. The school for the most part has excellent teachers willing and ready to help anyone who wishes to be helped. I would like to thank all of these teachers who have helped me. I'm afraid I cannot name names because I have a limited amount of space. I have many acquaintances, but only a few what I would call friends. They are what they are supposed to be, friends. They are honest, trustworthy and respect me as I respect them. To Frank, Dustin, Tracy and Kate thank you for being my friends. I look forward to seeing all of us succeed. Who knows maybe Dustin may design my house, Frank May program my computer, and Tracy will have to fix it. And who knows maybe one day you will sit down in a plane and hear "welcome, this is Jamieson Wicks your captain speaking please enjoy your flight".



Jamieson Wicks

This is my favorite poem
I was staring at the sky,
Just looking for a star.

To pray on, or wish on,
Or something like that.

I was having a daydream
Of a life that is hopeless
to be mine.

But then the dove of
Hope began its downward
Slope.

And I believed for a
Moment that my chances
Were approaching

But as it came near, so
Did a weary tear.
-I thought it was a bird,
but it was just a paperbag...

Get out your back pack.
Warm up your 4x4.
Head up to Masco.
Past Topsfield Library and the Emerson Center.
Past Proctor School where you went as a kid.
Blow the truck horn and throw a wave to Jim at Gil's.
Then the birds fly by Nuthatches, Chickadees and Crows.
Sun hits you. It's getting light now. You shift into third.
Head down Main Street, toward the Masco parking lot.
Freshman, Sophmores and Juniors are pulling in.
You know you're a SENIOR now, about to graduate.
Is there anything better in the world ???

WE ARE VERY PROUD OF YOU GARETT !
LOVE,
MOM, DAD & RIAN

We hope you still feel small when you stand beside the ocean.
Whenever one door closes we hope one more opens.
Give the heavens about more than just a passing glance.

We hope you dance!

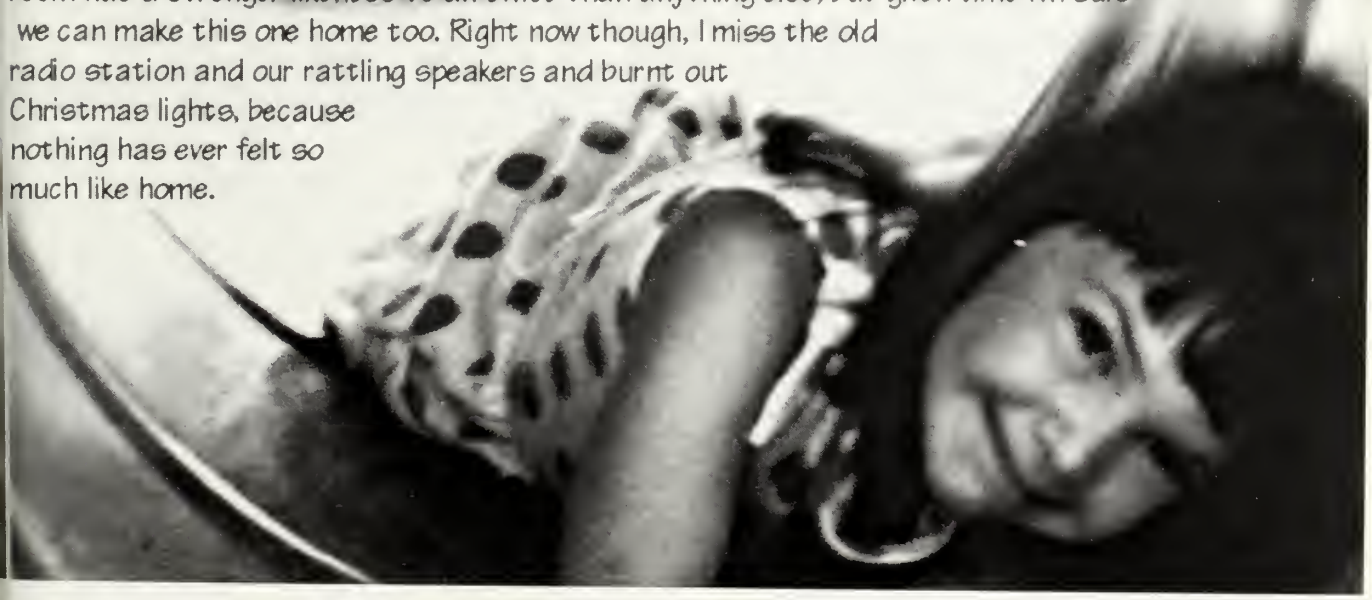
"810 Watts of Sheer Power..."

Behind the skillfully painted "brick wall" door, the styrofoam ceiling panels are crumbling; some are shifted to the side, revealing large gaping holes above the tiny, cramped room. The walls are draped with industrial carpeting, staple-gunned haphazardly years ago, as an attempt at keeping in the loud music blaring from the dusty, rattling speakers. Although most of the staples have given out already, the carpet remains, for the most part, fraying at the ends with scratchy corners sticking out, grabbing at the arms of people walking by it. This same carpet decorates the concrete floor, complete with randomly distributed pizza grease, frosting and soda stains, and strewn with shards of broken records. Rows of jumbled, broken plastic CD shelves line the only full wall in the room, and are filled only halfway with decent, usable music. As one would find upon attempting to play these CDs, only about one in ten is lucky enough to take shelter within a fully intact case; most of the cases are cracked, with broken or missing hinges, and ripped inserts. Pages also hang on this wall, each with its own designated number, reflecting how many hours were sold for radiothon on a particular year, with every page trying to outdo the one ahead of it.

The remaining three walls are predominantly windows, looking through into the hallway; the teachers, the students, the UPS men delivering shipments of math books – you can see everyone, and they can see you. The framing around the windows is coated with chipping green paint, which clashes with the layer of teal peeking out underneath it. The droopy strings of burnt out Christmas lights catch the draft, swaying and tapping against the Plexiglas. The dull blue countertops, upon which all the ancient, malfunctioning equipment lies, are chipped and scratched, and the wooden edges are pulled away a little at the corners. Playlists and engineering logs are scattered over every surface of the room, along with broken carts and promotional CDs; despite the failing maintenance of the room itself, the high school radio station which it houses is relatively functional. A handful of enthusiastic, dedicated station members work constantly to keep everything running smoothly, and while the radio station may be receiving more attention than the homework of these particular students is, it's all worth it in the end, because WBMT lends itself to being their second home.

WBMT remained this way up until this past June. With the destruction of our old high school, the radio station was also lost, and relocated to a new room with new equipment in the new high school. The carpeting is clean, the counters aren't scratched, and the ceiling doesn't have any holes in it. Our room has a stronger likeness to an office than anything else, but given time I'm sure we can make this one home too. Right now though, I miss the old radio station and our rattling speakers and burnt out Christmas lights, because nothing has ever felt so much like home.



CONGRATULATIONS, JONAS
